**Reply To:** Local Cache Inventory

**Date:** March 15, 2005

**Subject:** Local Cache Inventories/  
OIG Audit of the National Cache System

**To:** Local Area Support Cache and  
Initial Action Cache Managers

**REPLY DUE: MAY 30, 2005**

In compliance to the 1990 OIG Audit of the National Cache System and the Northern Rockies Cache Plan, we are requesting an inventory of supplies and equipment under your jurisdiction which may be requested for national fire suppression efforts. Attach is the 2004 inventory list which was developed, reviewed and edited by Cache Managers and the National Interagency Coordination Center.

Please complete the attached form and return it to the Northern Rockies Fire Cache by May 30, 2005.

This inventory will assist us in responding to requests for equipment and supplies at Preparedness Levels IV and V. You will still have control of the equipment and supplies. If the inventoried items are needed, a request will be made to you by your National Interagency Geographic Area Coordinator to provide equipment and supplies for national suppression efforts. At that time, you will need to assess your local situation and determine the actual availability of the equipment or supplies.

Please send all inventories and replies to EMAIL: bresner@fs.fed.us or fax number (406) 329-4962. If you have any questions please call (406) 329-4949.

/s/

MIKE PLATTES
